

Platinum Natural Gas Solutions

Manufacturer of High-Quality Test Gauges and Hand Pumps. Bands include: Magnum Pro calibration pump uses our unique patented design. Winchester Engineering Gauge will replace up to seven competing gauges.

Specializes in the design and fabrication of any need in the natural gas industry to include measurement and regulation stations, mainline valve sets, pig launchers/receivers, meter sets, farm taps, and meter tubes and spools.

We provide a wide variety of innovative valves, fittings, and hoses for many industries including: Oil & Gas, Semiconductor, Power Generation.

Manufacturer of Trunnion-Mounted Ball Valves, Floating Ball Valves, Swing Check Valves, Slab Gate Valves (Through Conduit), Cast, Forge & Pressure Steel Gate, Globe & Check.

RJ Machine Co.

Orifice Plates, Single Chamber Fittings, Parts for Single Chamber, Dual Chamber Fittings, Parts for Dual Chamber, Seal Rings, Flow Conditioners, Thermowells, Flanges

Gas Measurement Products including 6-path Ultrasonic Meters, Turbine Meters, Flow Computers, Gas Analysis Equipment

Premier distributor of valves, actuators & measurement products. We stock everyday commodity valves, and also specialize in hard to find valves

Trace-Safe® by NEPTCO

Trace-Safe® is the only water-blocking tracer wire. The strongest tracer wire and eliminates the need to use two or more standard tracer wires for directional drilling applications

Patented Thermal Solutions. Pilot Gas Heaters, Line Heater Alternatives, CNG Decompression w/o Pre-Heaters, LNG Pre-Cooling Energy Costs Eliminating Greenhouse Gas Emission.

H2O Moisture & Hydrocarbon Dewpoint Analyzers The Most Advanced Measurement Systems available using patented CEIRS™ technology.

High Performance Pilot-Type Gas Regulators Patented Piston Control System Wafer-Style Axial Flow Design & Innovative Cartridge Insert Design

Engineers & Manufactures High Performance Pilot-Type Pneumatic Pressure Controllers, Electronic Controllers, Anti-Surge Controls, Valve Gas Positioners, Control Valves. VRG's Valve Pilot Controllers (VPC's) represent the next generation of pilot-type controllers for gas regulation applications.
